Pico de Loro Cove is the maiden community of Hamilo Coast. It highlights the Lagoon Property Series which is composed of eight mid-rise residential buildings set around a tranquil lagoon. Pico de Loro Cove Beach Homes was designed to make the pleasures of owning a beach house as effortless and expedient as condominium living.

Only a 90-minute drive from the SM Mall of Asia, Hamilo Coast is envisioned to become the premier sustainable beach resort town of the Philippines. Its unique location at the head of the Nasugbu coastline – the long-established favored seaside address of the country’s elite, makes it the gateway to the so-called "Philippine Riviera".
